INDEPENDENT AUDITOR'S REPORT

To the Board of Directors of
Barack Obama Leadership Academy
Detroit, Michigan

Opinions

We have audited the accompanying financial statements of the governmental activities, the major fund, and the remaining fund information of Barack Obama Leadership Academy (the Academy) as of and for the year ended June 30, 2022, and the related notes to the financial statements, which collectively comprise the Academy's basic financial statements as listed in the table of contents.

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the major fund, and the remaining fund information of the Academy, as of June 30, 2022, and the respective changes in financial position for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Basis for Opinions

We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in Government Auditing Standards issued by the Comptroller General of the United States. Our responsibilities under those standards are further described in the Auditor's Responsibilities for the Audit of the Financial Statements section of our report. We are required to be independent of the Academy, and to meet our other ethical responsibilities, in accordance with the relevant ethical requirements relating to our audit. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

Responsibilities of Management for the Financial Statements

Management is responsible for the preparation and fair presentation of the financial statements in accordance with accounting principles generally accepted in the United States of America, and for the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is required to evaluate whether there are conditions or events, considered in the aggregate, that raise substantial doubt about the Academy's ability to continue as a going concern for twelve months beyond the financial statement date, including any currently known information that may raise substantial doubt shortly thereafter.

Independent Auditor's Report (Continued)

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinions. Reasonable assurance is a high level of assurance but is not absolute assurance and therefore is not a guarantee that an audit conducted in accordance with generally accepted auditing standards and Government Auditing Standards will always detect a material misstatement when it exists. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control. Misstatements are considered material if there is a substantial likelihood that, individually or in the aggregate, they would influence the judgment made by a reasonable user based on the financial statements.

In performing an audit in accordance with generally accepted auditing standards and government auditing standards, we:

- Exercise professional judgment and maintain professional skepticism throughout the audit.
- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, and design and perform audit procedures responsive to those risks. Such procedures include examining, on a test basis, evidence regarding the amounts and disclosures in the financial statements.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Academy's internal control. Accordingly, no such opinion is expressed.
- Evaluate the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluate the overall presentation of the financial statements.
- Conclude whether, in our judgment, there are conditions or events, considered in the aggregate, that raise substantial doubt about the Academy's ability to continue as a going concern for a reasonable period of time.

We are required to communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit, significant audit findings, and certain internal control-related matters that we identified during the audit.

Independent Auditor's Report (Continued)

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and budgetary comparison information be presented to supplement the basic financial statements. Such information is the responsibility of management and, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Reporting Required by Government Auditing Standards

In accordance with Government Auditing Standards, we have also issued our report dated November 14, 2022 on our consideration of the Academy's internal control over financial reporting and on our tests of its compliance with certain provisions of law, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the Academy's internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with Government Auditing Standards in considering the Academy's internal control over financial reporting and compliance.

BARACH OBAMA LEADERSHIP ACADEMY

Management's Discussion and Analysis (MD&A) June 30, 2022

As management of Barack Obama Leadership Academy (the "Academy"), we offer readers of the Academy's basic financial statements this narrative overview and analysis of the financial activities of the Academy for the years ended June 30, 2022 and 2021.

Management's discussion and analysis is included at the beginning of the Academy's basic financial statements to provide, in layman's terms, the current position of the Academy's financial condition. This summary should not be taken as a replacement for the audit, which consists of the basic financial statements and other supplementary information.

FINANCIAL HIGHLIGHTS

Our basic financial statements provide these insights into the results of this year's operations.

- As of June 30, 2022 the Academy's fund balance for the governmental funds was \$127,131 as compared to \$508,385 at June 30, 2021.
- As of June 30, 2022, the Academy had net position of \$899,271 as compared to \$1,187,193 at June 30, 2021.

OVERVIEW OF THE FINANCIAL STATEMENTS

This discussion and analysis is intended to serve as an introduction to the Academy's basic financial statements. The Academy's basic financial statements are comprised of three components: 1) academy-wide basic financial statements, 2) fund level basic financial statements, and 3) notes to the basic financial statements.

Academy-Wide Financial Statements

The academy-wide financial statements are designed to provide readers with a broad overview of the Academy's finances, in a manner similar to a private sector business.

The statement of net position presents information on all of the Academy's assets, liabilities, and deferred inflows/outflows of resources, with the difference between these items reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the Academy is improving or deteriorating.

The statement of activities presents information showing how the Academy's net position changed during the year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g. uncollected revenues and services rendered but unpaid).

The academy-wide financial statements include all governmental activities that are principally supported by grants and entitlements from the state for full-time equivalent funding. The Academy does not have any business-type activities. The governmental activities of the Academy primarily include instruction and instructional support services.

The academy-wide basic financial statements can be found on pages 1 and 2 of this report.

OVERVIEW OF THE FINANCIAL STATEMENTS (Continued)

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The Academy, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements.

Governmental Funds

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide basic financial statements, governmental fund basic financial statements focus on near-term inflows and outflows of spendable resources, as well as balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating the Academy's near-term financing requirements.

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the Academy's near-term financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and change in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

All of the Academy's services are reported in governmental funds. Information is presented in the governmental fund balance sheet and the governmental fund statement of revenues, expenditures and change in fund balance. The general fund is the Academy's primary fund. The Academy also has a school service fund that accounts for the Academy's food service operations.

The Academy adopts an annual budget for its governmental funds. Budgets are revised in an attempt to deal with unexpected changes in revenue and expenditure. State law requires that the budget be amended to ensure that expenditures do not exceed appropriation. A schedule showing the Academy's original and final budget amounts compared with actual revenues and expenditures is provided as required supplemental information of these financial statements.

The governmental fund financial statements can be found on pages 3 and 5 of this report.

Notes to Basic Financial Statements

The notes provide additional information that is essential for a full understanding of the data provided in the government-wide and fund financial statements. The notes to the basic financial statements can be found on pages 7 through 14 of this report.

Comments on Budget Comparisons

- General fund budgeted revenue compared to actual revenue varied from line item to line item with the ending actual revenues being \$297,399 less than budget or approximately 6%.
- The total budgeted expenses compared to actual expenses varied from line item to line item with the ending actual expenses being \$32,978 more than budget or approximately 1%.

CAPITAL ASSETS AND DEBT ADMINISTRATION

Capital Assets

At June 30, 2022, the Academy had capital assets of \$876,198, net of accumulated depreciation and amortization, including building and improvements, furniture and equipment leased vehicles compared to \$831,798 at June 30, 2021.

Debt

At June 30, 2022, the Academy had \$104,058 in long-term debt as a lease obligation for school buses.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

The Academy considers many factors when setting the Academy's 2022-2023 fiscal year budgets. One of the most important factors affecting the budget is our student count. The State foundation revenue is determined by multiplying the blended student count by the foundation allowance per pupil. The blended count for the 2022-23 fiscal years is 90 percent of the current school year October count and 10 percent of the prior February count. The all-inclusive budget was adopted in June 2022 based on an enrollment estimate of 325 students in the Fall of 2022-23.

Under State law, the Academy cannot assess property taxes for additional revenue for general operations. As a result, the Academy is heavily dependent on the State's ability to fund school operations. Based on early enrollment data and aggressive recruiting efforts, the estimated fall count of 325 students is not in line with the estimate used to create the budget. The Academy currently have approximately 343 students enrolled as of fall count day.

Once the final student count and related pupil funding are validated, State law requires the Academy to amend the budget if actual Academy resources are not sufficient to fund original appropriations. Since the Academy's revenue is heavily dependent on State funding and the health of the State's School Aid Fund, the actual revenue received depends on the State's ability to collect revenue to fund its appropriations to public schools and public school academies. The State periodically holds a revenue estimating conference to estimate revenues.

ECONOMIC FACTORS AND NEXT YEAR'S BUDGET

Since the Academy's revenue is heavily dependent on State funding and the health of the State's School Aid Fund, the actual revenue received depends on the State's ability to collect revenues to fund its revenues. Based on the results of the most recent conference, the State estimates funds will be sufficient to fund the appropriation.

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

The accounting policies of Barack Obama Leadership Academy (the Academy), conform to generally accepted accounting principles as applicable to schools. The following is a summary of the significant policies:

Reporting Entity

Barack Obama Leadership Academy is a charter school academy organized under the Michigan School Code of 1976, as amended by Act No. 362 of the Public Acts of 1993 and Act No. 416 of the Public Acts of 1994.

On July 1, 2022, the Academy renewed and entered into a three-year contract with the Detroit Public Schools Community District (DPSCD) to Charter a Public School Academy and is effective through June 30, 2025. The DPSCD Board of Trustees is the fiscal agent for the Academy and is responsible for overseeing the Academy's compliance with the contract and all applicable laws and other related activities for which compensation is permissible. By agreement between DPSCD and the Academy, the Academy pays the DPSCD Board of Trustees 3 percent of the Academy's State School Aid payments as an administrative fee. The total administrative fee paid for the year ended June 30, 2022 to DPSCD was approximately \$70,900.

Measurement Focus, Basis of Accounting, and Financial Statement Presentation

Academy-Wide and Fund Financial Statements

The academy-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all of the activities of the Academy. Governmental activities, which normally are supported by intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support. All of the Academy's activities are considered governmental activities.

The statement of activities demonstrates the degree to which the direct expenses of a given function or segments are offset by program revenues. Direct expenses are those that are clearly identifiable with a specific function. Program revenue includes (1) charges to customers or applicants who purchase, use, or directly benefit from goods, services or privileges provided by a given function and (2) grants and contributions that are restricted to meeting the operational or capital requirements of a particular function. Intergovernmental payments, and other items not properly included among program revenues are reported instead as general revenue.

Academy-Wide Financial Statements – The academy-wide financial statements are reported using the economic resources measurement focus and the accrual basis of accounting. Revenue is recorded when earned and expenses are recorded when a liability is incurred, regardless of the timing to related cash flows. Grants, categorical aid, and similar items are recognized as revenue as soon as all eligibility requirements imposed by the provider have been met.

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Measurement Focus, Basis of Accounting, and Financial Statement Presentation (Continued)

Academy-Wide Financial Statements – (Continued) When an expense is incurred for purposes for which both restricted and unrestricted net assets or fund balance are available, the Academy's policy is to first apply restricted resources. When an expense is incurred for purposes which amounts in any of the unrestricted fund balance classifications could be used, it is the Academy's policy to spend funds in this order: committed, assigned, and unassigned.

Fund Financial Statements – Governmental fund financial statements are reported using the current financial resources measurement focus and the modified accrual basis of accounting. Revenue is recognized as soon as it is both measurable and available. Revenue is considered to be available if it is collected within the current period or soon enough thereafter to pay liabilities of the current period. For this purpose, the Academy considers revenues to be available if they are collected within 60 days of the end of the current fiscal period. Expenditures generally are recorded when a liability is incurred, as under accrual accounting.

Unrestricted State Aid and Intergovernmental Grants, associated with the current fiscal period are all considered to be susceptible to accrual and so have been recognized as revenue of the current fiscal period. All other revenue items are considered to be available only when cash is received by the Academy.

General Fund - The Academy's major fund is the General Fund. This fund is used to account for all operational activities of the Academy. The General Fund includes the current operating expenditures of the Academy. Revenues are derived primarily from the State of Michigan.

School Service Fund – The School Service Fund is used to account for the food service operation. Its revenues are derived primarily from a federal grant and student charges.

Assets, Liabilities and Net Position or Equity

Cash and Cash Equivalents – Cash and cash equivalents include cash on hand, demand deposits, and short-term investments with a maturity of three months or less when acquired.

Receivables – Receivables are shown net of an allowance for uncollectible amounts. The Academy considers all receivables to be fully collectible. Accordingly, no allowance for uncollectible amounts has been recorded. During the year, the Academy wrote off \$120,321 of prior year receivables.

Inventories – Inventories are valued at cost, on a first-in, first-out basis. Inventories are recorded as expenditures when consumed rather than when purchased.

Prepaid Costs – Certain payments to vendors reflect costs applicable to future fiscal years and are recorded as prepaid costs in both government-wide and fund financial statements.

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)

Assets, Liabilities and Net Position or Equity (Continued)

Capital Assets – Capital assets, which include building improvements, furniture and equipment, and computer hardware, are reported in the applicable governmental column in the academy-wide financial statements. Capital assets are defined by the Academy as assets with an initial individual cost of more than \$500 and a useful life greater than one year. Such assets are recorded at historical cost or estimated historical cost if purchased or constructed. Donated capital assets are recorded at estimated fair market value at the date of donation. Cost of normal repair and maintenance that do not add to the value or materially extend asset life are not capitalized. The Academy does not have infrastructure-type assets.

All the Academy's assets are depreciated using the straight-line method over the following useful lives:

Building Improvements	5 years
Furniture and Other Equipment	5 to 10 years

Right to use assets are depreciated over the shorter of the lease term or the useful life of the asset.

Deferred Outflows of Resources – In addition to assets, the financial statements will sometimes report a separate section for deferred outflows of resources. This separate financial statement element represents a consumption of net position that applies to a future period(s) and will not be recognized as an outflow of resources (expense/expenditure) until then. The Academy has no deferred outflows of resources at June 30, 2022.

Deferred Inflows of Resources – In addition to liabilities, the balance sheet will sometimes report a separate section for deferred inflows of resources. This separate financial statement element represents an acquisition of net position that applies to a future period(s) and so will not be recognized as an inflow of resources (revenue) until that time. The governmental funds report unavailable revenues, which arises only under a modified accrual basis of accounting, from grants receivable. These amounts are deferred and recognized as an inflow of resources in the period that the amounts become available. The Academy had no deferred inflows of resources at June 30, 2022.

Unearned Revenue – Unearned Revenue is reported in connection with funds that have been received for services which have not been performed and is therefore not yet earned. At June 30, 2022, the Academy had no unearned revenue.

Compensated Absences (Vacation) – A Liability for compensated absences would be reported in the government-wide statements and consist of earned but unused accumulated vacation benefits. A liability for these amounts would be reported in governmental funds as it comes due for payment. The Academy had no liability for compensated absences at June 30, 2022.

Fund Balance – GASB 54 provides for two major types of fund balances, which are non-spendable and spendable. Non-spendable fund balances are balances that cannot be spent because they are not expected to be converted to cash or they are legally or contractually required to remain intact. This category typically includes prepaid items and inventories.

1) SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES (Continued)**Assets, Liabilities and Net Position or Equity (Continued)****Fund Balance (Continued)**

In addition to non-spendable fund balance, GASB 54 has provided a hierarchy of spendable fund balances, based on a hierarchy of spending constraints.

- a. *Restricted fund balance* – amounts constrained to specific purposes by their providers (such as grantors, bondholders, and higher levels of government), through constitutional provisions, or by enabling legislation. The Academy's school service fund balance, which is restricted for food service operations had a balance of \$0 at June 30, 2022.
- b. *Committed fund balance* – amounts constrained to specific purposes by the Board; to be reported as committed, amounts cannot be used for any other purpose unless the Board takes action to remove or change the constraint.
- c. *Assigned fund balance* – amounts the Board intends to use for a specific purpose; intent can be expressed by the Board or by an official or committee to which the Board delegates the authority.
- d. *Unassigned fund balance* – amounts that are available for any purpose; these amounts are reported only in the general fund.

Net Position – Net position of the Academy is classified in three components. Net Investment in capital assets consists of capital assets net of accumulated depreciation and is reduced by the current balances of any outstanding borrowings used to finance the purchase of those assets. Restricted net position is further classified as expendable and nonexpendable. The Academy did not have any non-expendable restricted net position during the year. Unrestricted net position is the remaining net position that does not meet the definition of invested in capital or restricted.

Use of Estimates – The preparation of the financial statements in conformity with accounting principles generally accepted in the United States of America requires management to make estimates and assumptions that affect the amounts of assets and liabilities, disclosure of contingent assets and liabilities at the date of the financial statement, and the reported revenues and expenses during the reporting period. Actual results may differ from those estimates.

Adoption of New Accounting Pronouncement – In June 2017, the GASB issued Statement No. 87, Leases, which improves accounting and financial reporting for leases by governments. This statement requires recognition of certain lease assets and liabilities for leases that were previously classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources. The Academy has a lease for school buses that was previously accounted for as a capital lease. The implementation of GASB 87 had no significant impact on the Academy.

2) STEWARDSHIP, COMPLIANCE, AND ACCOUNTABILITY

Budgetary Information – Annual budgets are adopted on a basis consistent with generally accepted accounting principles and State law for the General Fund. Capital outlay expenditures are budgeted within the various functions. All annual appropriations lapse at fiscal year ended.

The budget document presents information by fund, function, and object. The legal level of budgetary control adopted by the governing body (i.e., the level at which expenditures may not legally exceed appropriations) is the object level. State law requires the Academy to have its budget in place by July 1. Expenditures in excess of amounts budgeted are a violation of Michigan law. State law permits schools to amend their budgets during the year. During the year, the budget was amended in a legally permissible manner. For the year ended June 30, 2022, expenditures in total exceeded the budget by \$32,978. The individual lines which expenses exceeded the budget are shown below.

	<u>Original Budget</u>	<u>Final Budget</u>	<u>Actual</u>	<u>Over (Under) Final Budget</u>
Expenditures				
<u>Instructional Services</u>				
Added Needs	\$ 625,000	\$ 593,856	\$ 689,779	\$ 95,923
<u>Supporting Services:</u>				
Instructional Staff Services	85,000	484,133	532,057	47,924
General Administration Services	349,000	412,150	423,032	10,882
School Administration Services	145,000	168,148	220,081	51,933
Operation and Maintenance	325,000	655,124	747,192	92,068
Other Central Support	350,000	520,645	549,951	29,306
Pupil Transportation Services	300,000	302,554	304,528	1,974
Community Services	60,000	56,700	74,017	17,317

Encumbrance accounting is employed in governmental funds. Amounts encumbered for purchase orders, contracts, etc. are not tracked during the year. Budget appropriations are considered to be spent once the goods are delivered or the services rendered.

Grants – Amounts received or receivable from grantor agencies are subject to audit and adjustment by the grantor agencies, principally the federal and state governments. Any disallowed claims, including amounts already collected, would become a liability of the General Fund. In the Academy's opinion, no disallowed claims are expected and would not have a material effect on the financial statements as of and for the year ended June 30, 2022.

3) DEPOSITS AND INVESTMENTS

State statutes authorize the Academy to make deposits in the accounts of federally insured banks, credit unions, and savings and loan associations that have offices in Michigan. The Academy is allowed to invest in U.S. Treasury or agency obligations, U.S. government repurchase agreements, bankers' acceptances, commercial paper rated prime at the time of purchase that matures not more than 270 days after the date of purchase, mutual funds, and investment pools that are composed of authorized investment vehicles. The Academy's deposits are in accordance with the statutory authority. As of June 30, 2022, the Academy does not have any investments.

3) DEPOSITS AND INVESTMENTS (Continued)

The Academy has designated one bank for the deposit of its funds.

The Academy's cash and investments are subject to several types of risk, which are examined in more detail below:

Custodial Credit Risk of Bank Deposits

Custodial credit risk is the risk that in the event of bank failure, the Academy's deposits may not be returned to it. At the year end, the Academy had a deposit balance of \$492,842, out of which \$242,842 was not covered by federal depository insurance.

The Academy evaluates each financial institution it deposits funds with and assesses the level of risk of each institution; only those institutions with an acceptable estimated risk level are used as depositories.

Interest Rate Risk

Interest rate risk is the risk that value of investments will decrease as a result of a rise in interest rates. The Academy does not have investments with interest rate risk.

Credit Risk

State law limits investments in commercial paper to the top two ratings issued by nationally recognized statistical rating organizations. The Academy held no such investment at June 30, 2022.

Foreign Currency Risk

Foreign currency risk is the risk that an investment denominated in the currency of a foreign country could reduce its U.S. dollar value, as a result of changes in foreign currency exchange rates. State law and Academy's policy prohibit investment in foreign currency.

4) DUE FROM OTHER GOVERNMENTAL UNITS

Receivables from other governmental units as of year-end for the Academy include \$526,077 from the State of Michigan, \$12,939 from Federal grants.

Net Governmental Capital Assets	<u>\$ 831,798</u>	<u>\$ 44,400</u>	<u>\$ 876,198</u>

Total depreciation and amortization expense was \$63,225 for the year ended June 30, 2022. Depreciation is unallocated in the Statement of Activities.

6) MANAGEMENT COMPANY AGREEMENT

The Academy has entered into a contract with Magnum Educational Management Company (Magnum) through June 30, 2023. Under the direction of the Academy's Board, Magnum shall be responsible for all of the management, operation, administration, and education at the Academy, by providing certain services directly to the Academy, subcontracting for certain services, and overseeing other contractors. The management contract may be terminated under various circumstances as defined in the management agreement. The management contract provides that the Academy shall pay Magnum an annual fee of 10% of the State school aid the Academy receives from the State of Michigan less the administrative fees paid to DPSCD.

Compensation for the year ended June 30, 2022 was \$246,996.

7) LEASE OBLIGATION

On September 16, 2019, November 8, 2019, and January 28, 2020, the Academy entered into three agreements to lease four buses with TCF Bank, N.A. in the total amount of \$309,569 that carries an interest rate of 2.99%. The lease agreement requires two semi-annual lease payments for one bus of \$8,256, for the other two buses of \$16,512 and for one bus \$8,256, which includes principal and interest. At June 30, 2022, the outstanding balance is \$104,058.

A schedule of annual lease payments are as follows:

<u>Year Ended</u> <u>June 30</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>
2023	\$ 52,194	\$ 13,854	\$ 66,048
2024	51,864	14,183	66,047
Total	<u>\$ 104,058</u>	<u>\$ 28,037</u>	<u>\$ 132,095</u>

8) INTERFUND RECEIVABLES, PAYABLES, AND TRANSFERS

The composition of inter-fund balances is as follows:

<u>Fund Transfer In</u>	<u>Fund</u> <u>Transfer Out</u>
Cafeteria Fund	\$ 12,940
Total	<u>\$ 12,940</u>

9) WITHHOLDING OF PRIOR YEAR REVENUE

During the year the State of Michigan withheld a total of \$99,022 from the following grants: \$53,021 Title I funds, \$40,275 Title II funds and \$5,726 Title IV funds. This had been recorded as revenue in prior fiscal years.

10) SUBSEQUENT EVENTS

The Academy has evaluated all subsequent events through November 14, 2022, the date the financial statements were available to be issued. No items were noted requiring disclosure in this report except as noted below.

In September 2022, the Academy borrowed \$300,000 at 5.40% annual interest on a state aid anticipation note. Proceeds from the note were used to fund school operations.
